

Submitter: Aaron Anson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill is anti woman, and anti our minority communities. Gun control is rooted in racism, and sexism. Women and minorities are our most vulnerable groups of people when it comes to violent crime. Reasonable access's to firearms protects these aforementioned groups by creating an equalizer between them and who seeks to do them harm. With the rise in racism and domestic abuse in this country, it would be foolish to restrict basic constitutional freedoms from our most vulnerable.
