I support HB 2963.

I want to say that I regularly bike with an ebike. Getting an ebike has fundamentally changed how I get around town. I now bike for almost all errands less than 5 miles. It find the biking helps my physical and mental health. I also helps me to reduce my carbon footprint.

If we want to stop climate change, we need to reduce the amount of driving that we do. Helping me people get ebikes is a start.

As I said it was transformational for me.
