

Submitter: Erick Browning

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Please remember that you are all employees of the taxpayers and voters, you are not our overlords. Your "Bible" as it were is the US Constitution and the Bill of Rights. Specifically, the 2nd Amendment which restricts the government on the God given rights that you are prohibited to infringe upon. These are not rights that the government grants us as some of you erroneously believe. Given the supreme court's views on the 2nd Amendment and the Bruen decision, I assumed that you would have actually read it, as it states that you MUST have a historical analog to justify your restrictions on the 2nd Amendment, and of course there are none. What you are doing is a flat out infringement and in direct violation of the Bruen decision.

I understand that you have no issue using and thereby wasting taxpayer funds for endless court battles, but for once I would love to see our Oregon government make a decision FOR the people rather than against them. All we see and hear is how you want to restrict the rights of law abiding gun owners and I have yet to see or hear one idea that will actually affect the criminal element of our society. I also understand that most of you have accepted money direct from George Soros and Michael Bloomberg, whether it be directly or thru some fictitious foundation of sorts, but you actually work for US, the PEOPLE. Remember that as we will remember it come election season. Follow the Constitution for once in your lives.

Your job hinges upon it.
