Measure, Appointment or Topic: HB3075

The reason I opposed this bill HB3075 is the following. I work at a Gun store and this bill will hurt my lively hood and where I work. If this bill passes I will have to close the doors to my business and I will not be able to put food on the table for my family. This bill only hurts law, abiding citizens, and the rights of those citizens. It does not affect criminals. Criminals are still going to find a way to possess firearms and get those firearms any way they can.

Thank you
