Measure, Appointment or Topic: HB3075

This bill HB 3075 is a complete violation of our 2nd amendment rights, a complete infringement. You are making law abiding citizens not able to exercise their rights. You are making underprivileged, low income people not be able to exercise their rights to own a firearm too by making the fees/costs not affordable to them. We just went through measure 114 and then people think this is appropriate to do immediately after? Over 99% of people of Oregon do not commit crimes with guns yet this would punish them as if they had. This bill must not pass to preserve our constitutional rights.
