House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I am against measure 114 because enforcing this law will only make it much more difficult for law abiding citizens to purchase firearms and will not affect illegal firearm possession. The firearms used in violent crimes are often obtained illegally, by non law abiding citizens. This law will discourage the purchasing of firearms by law abiding Americans and leave the average citizen in an unsafe situation by limiting their freedom to defend themselves from violent criminals. Also, the state of Oregon currently has no way to even enforce this law due to the unreasonable requirements it includes. This law is the equivalent of requiring citizens to have a drivers license and registration on their vehicle without the existence of a DMV. This law is a very unintelligent move towards attempting to make the state safer and will not affect the number of violent crimes. Restricting Oregonians freedoms is a terrible way to "improve" the state. I oppose measure 114.
