

Submitter: Tyson Lee

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As a 6th-generation Oregonian, I oppose House Bill 3075. The permit-to-purchase system and the magazine capacity restrictions in this bill will fail to make Oregon citizens any safer than under current Oregon law. This bill will only unduly burden the rights of Oregon citizens. Additionally, as there are currently pending lawsuits relating to Measure 114, any similar legislative actions should not be pursued until after those judicial actions have concluded.
