

Submitter: Elaine Lavington

On Behalf Of:

Committee: House Committee On Higher Education and Workforce
Development

Measure, Appointment or Topic: HB2553

I SUPPORT HB 2553. Trades and technical training are an essential part of a thriving community and economic system. We should be supporting those who choose a career path in trades, just as we currently support those who choose to attend college. This just seems like a common sense bill that I encourage you to vote YES on.
