

Submitter: Richard Mabie

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am a hunter and law abiding gun owner. I oppose HB3075. This bill is an expansion on a bill that is already tied up in court and will make it harder for minority and low income households to secure means to defend themselves. It will not deter those that actively break the law. It is a waste of police and tax resources. At this time the total is unknown of the amount, due to no fiscal impact statement on the proposed changes. There is an expo facto in this bill due the back dated implication date of 2022. Ex po facto is unconstitutional in Federal court.
