

Submitter: Cole Underdahl

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This HB impedes any law abiding citizen from effectively protecting their family. Too much evil exists in the world for an individual to wait for police to arrive and this bill not only impedes my use of any weapon I already own, but makes me a criminal for just owning them. These weapons are the weapons I've trained with. The weapons that if the need were to arise I could use safely.
