Measure, Appointment or Topic: HB3075

Quit taking our rights away. This is unconstitutional, your turning OUR state into a 3rd world country and you can get your liberal buns I will be defending my family along with many others. You are not above us little peasants and the criminals you are allowing to feast in OUR state, not just yours will harm you or your loved ones as well. There is no hands of my people because I voted to allow no weapons, and all these drugged out sex offenders into Oregon. It's not rules thee not for me. It's for us all and if we can't defend ourselves, either can you. That means you give up your plush mansion and security detail Kotek.
