HB3075

Briefly, this proposal of threatening law abiding Oregonians with an arbitrary magazine capacity of 10 rounds with do as much as all the combined anti-gun legislation has done. Nothing. Violent and evil people that law makers allow to roam free are the issue. Not law abiding and gun owners that this state has vetted as being that. Safe, law abiding Oregonians.

The history lesson of the law abiding American gun owner will have been repeated on this issue. We are Oregonian, free Americans and have the protection of the 2nd Amendment across this nation. The abuse to ignore this attempt based on the majority party of Oregon, is wrong as well as baseless. Please reassess this Bill. I oppose it. Thank you.
