

Submitter: Dustin Alam

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose HB 3075 for many reasons one being it is an infringement upon law abiding citizens second amendment rights. Two being that criminals don't follow laws, if someone kills someone not in self defense with a gun they are literally breaking the law. Why would they follow this one? Finally HB 3075 should not pass out of the House Judiciary Committee because it doesn't have a required Fiscal Impact Statement. This is an unfunded mandated for counties and our counties can not afford to deal with more of the fall out from bad laws at the state level. Look at what you caused with measure 110. This should not pass.
