Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

The process to get a federal license is already onerous enough, it took me approximately 6 months to get mine, involved criminal background checks, and an in person interview. ATF already does a fine job regulating federal firearms licensees, with yearly checks. There is nothing to be gained from this. This is yet another attempt by the legislature to destroy the firearms sport in Oregon.

Legal owners and dealers aren't the problem, criminals are. Send the cops after them, not honest people complying with the already heavy burden the current rules impose on a natural right.
