Measure, Appointment or Topic: HB3075

My name is Eric Hibbs. I am adamantly opposed to HB 3075 and Measure 114! This bill aims to make criminals out of thousands of law abiding gun owners and does absolutely nothing to affect the ACTUAL criminal element of society! By definition criminals DO NOT FOLLOW THE LAW, therefore it doesn't matter if there is 1 or 1000 laws saying something is illegal, criminals WILL NOT ABIDE BY THE LAW! This bill will not only make criminals out of law abiding citizens but it will create a massive financial impact on the state and local governments to try and implement, none or which is addressed in this bill. Not only that it creates yet another financial burden on us law abiding citizens in order to try and obtain a firearm. Something that is a God given right and also supposed to be protected under the 2nd amendment of the United States Constitution (which our local government/politicians, and law enforcement swore to uphold!!). How about we do just that and shoot down this horrible bill and quit undermining the United States Constitution!
