

Submitter: Todd Thresher

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose this measure, criminals will and do not follow the rules. Not only does this cost us taxpayers more money, it keeps more regulations on ourselves. Law abiding citizens are not the problem. The criminals are! We don't need more gun laws, we need the current laws to be upheld! We have background checks for every person purchase regarding a firearm. The amount of ammo is irrelevant. This does nothing good for the people in the state of Oregon.

Police resources are already stretched thin. We do not need to add more to their plate with this terrible bill! The amount of money spent trying to take ways rights from the people could instead be used for something positive. I oppose all that this bill stands for!
