Transportation and Economic Development

Measure, Appointment or Topic: HB5024

Aviatrix is world class distributor of aircraft parts, specializing in the legacy aircraft platforms. We participated in the STEP grant program since 2015 and it has helped fund our participation in many international trade shows and events. From those trade shows, we have built relationships with MROs and Fleet Operators around the world. For example, in 2024, we were included in the State of Oregon USA Partnership Pavilion at the Singapore Airshow. Alexa and the Business Oregon team arranged for us to meet with country experts in the region (Thailand, Singapore, and Australia). Those meetings served as an introduction and jumping off point to sell our products in the region.

The program has been very helpful and we look forward to continuing to partner with Business Oregon in future international shows and events including the Singapore Airshow in 2026.
