Measure, Appointment or Topic: HB3075

I wholeheartedly oppose HB 3075-1. I am owner and operator of Stronghold Defense LLC, a firearms training company. HB3075-1 hurts legal Oregon gun owners and future owners. It is irrational in process and impact. HB3075-1 has no financial impact attached or identified, is an unfunded measure, and will ultimately cost Oregonians an untold amount of red tape and money to implement and support. HB3075-1 will close my business as the money income stream is from conducting Oregon Concealed Handgun License (CHL) classes. In closing, this piece of legislation is directly causing harm to Oregonians and needs to be vehemently opposed.
