Standards
Measure, Appointment or Topic: HB3838

As an Adult Foster Care facility business owner, I firmly oppose Bill 3838. The adult foster care sector is already subject to stringent regulations enforced by the Department of Human Services. Introducing an additional layer of oversight undermines the authority of the existing division and places an unnecessary burden on those of us who strive to ensure that we implement rules and regulations in a manner that prioritizes the well-being of our residents. This legislation would lead to increased costs for home-health care services, compelling business owners to raise their internal rates. Such changes would adversely affect the patients who depend on these vital services, as well as the workforce within the industry. I appreciate your consideration in opposing this Bill.
