Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As a wife, mother, grandmother and Professional Career, woman, I STRONGLY oppose this! It scares me to the core, the danger this bill can put my family in by the restrictions it carries for me and my family to easily protect our selves and each other! There are too many outside human dangers from criminals (not law abiding) that are being given free will to do as they please and no punishment for their unlawful actions. SHAME on you Oregon Government and Oregon Governor for the lies, false information, and embellished full of lies facts. And for portraying the overwhelming percentage of law abiding citizens of handguns and fire arms as the criminals and the criminals as being innocent victims. Giving no STRICT punishment to the criminals, but instead, criminalizing the law abiding innocent gun owner citizens. I am ANGRY at you and ashamed of you all Governor and Legislators!
