Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I absolutely think this bill is an insult to honest gun owners and is designed to prevent one from exercising their 2nd Amendment rights. It's an unfunded mandate to the county sheriffs that have to implement it, which in populated counties will cost a great deal of money for staff to implement the various provisions of it. I've had a Hunter Safety card since the early 60's, been a Hunter my entire life as well as a competitive shooter, held a CHL forever and actually taught concealed weapons classes for our sheriff in the 80's and because of this bill I will have to qualify for a permit just to buy a gun. The people perpetrating this sad situation should be ashamed of what it's doing to honest people such as myself.
