Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I completely oppose M114 as I believe it is a government overreach and inhibits my ability to purchase, own, and utilize firearms for personal protection, protection of my family, and in recreational pursuits such as hunting. Having to apply for and pay for an additional permit just to gain the right to purchase a firearm is ridiculous because it will only prevent lawful firearm owners from obtaining firearms. The system already gets grossly backed up without having to wait for understaffed and underfunded local LE agencies to issue permits so that I can go and purchase a firearm, and then have to allow my background check to go through to take said firearm home.
