Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

My name is Tim. I am an infantry veteran that views this and other anti-gun measures as being anti-second amendment and short sided. I am a husband, father, and Oregon resident that is concerned not only for my own safety but the safety of my family.

It is my opinion that this attack on firearms passed only because voters were misled and had individual items been held to a vote, this conversation would never have happened. It is also tragic where this measure affected law abiding citizens and criminalizes them. People that had no interest in firearms or self protection were able to make personal safety decisions for others which is wrong. There were no exceptions allowed. This became an overnight fight against legal American gun owners. Please remember the residents that still believe in the original intent of our constitution and amendments.
