On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

As a precinct committee person for Canby, Oregon it is my duty to oppose HB 3075 and Measure 114. Neither of these provisions is in the best interest of public safety and is a direct challenge to our Second Amendment right to bear arms. These provisions are a direct challenge because anything beyond a background check or any additional processes that would in any way hinder an individual's right to bear arms is illegal.
