Measure, Appointment or Topic: HB3076

I oppose HB 3076! Adding more regulation to rules and laws already in place wont fix the problems at hand! Laws like this just cause the normal guy to become criminals! As an avid hunter/fisherman I know the value of safe gun handling practices and always ensure gun safety. But this ban will cause a huge amount of problems and eventually cut out all gun dealers amongst other issues. This is not the solution!
