

Submitter: Sara Aguilar

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This measure will not effectively address gun violence. The individuals who commit crimes with firearms typically acquire them through illegal means, rendering additional restrictions ineffective in curbing unlawful gun use. Instead, this measure primarily impacts law-abiding citizens, restricting their right to legally acquire and use firearms in a responsible manner. Rather than reducing gun violence, it will limit the ability of citizens to protect themselves and their families.

Furthermore without a fiscal impact statement. This bill will be an unfunded liability for all.
