Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Hello House, committee, I am actively practicing Paramedic. I respond to medical and traumatic emergencies daily. I'm in your home, at your neighbor's house. I'm always ready and dedicated to respond, treat and transport anyone in need. Day or night insured or not. I will come and render emergency care and transport. I highly oppose HB 3075 for the following since as a paramedic I have almost never ever had to respond to gun violence. Ask anyone in my field. Oregon has more opioid and opiate overdoses, cardiac arrest and vehicle accidents rather than gun violence that be intentional or unintentional. This measure will not make the community any safer. This bill is a direct violation of the second amendment and makes false claims to save lives. This bill punishes the legally responsible gun owners. Criminals don't follow laws, that's why they are the criminals. They don't care about the law! I urge you to please look at the data and see the calls that paramedics are responding to too.
