The majority of gun owners reject all these proposals as an attack on the 2nd Amendment and they are unconstitutional period! Nothing in these bills will deter criminals, they only attack law abiding citizens of their freedoms and self defense. Most county sheriffs offices don't have anything in place to implement this permit process, or the mandatory training, plus the cost would overwhelm most counties. Besides hurting sporting goods stores and other retailers.

As a clod war veteran, a gun owner, a trained range officer... the anti gun groups have no clue about self defense, or the threats America faces. We have the right to defending ourselves, our family, our cities, our state and our nation. These bills create more havoc with turning law abiding citizens into criminals under a false narrative. Imagine a planned attack on the United States by China, Russia, N. Korea, Iran all at the same time? Police and military cannot be everywhere, and we as citizens will not tolerate being defenseless under these socialist rules that Oregon is trying to burden on us. Bottom line, the 2nd Amendment SHALL NOT BE INFRINGED! Period...
