

Submitter: Anna LaChapelle

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Rayfield states measure 114 will be, "helping to keep firearms out of the wrong hands and making our communities safer."

Since when does it make it safer for law abiding citizens by making life harder, more expensive, complicated and more time consuming? How are communities safer when protection of community is threatened by 114. Meanwhile, the people doing the damage don't give 2 cents about the law and obtain their guns illegally, completely bypassing measure 114's hoops !

Are you serious? How is this even a legitimate brain cell function? Anyone in their right mind could see the obvious!!! Blinded perhaps? Non supporters of 114 are not blind, but in fact outraged at this breach of our constitutional rights! Please don't act on sheer stupidity and your own ignorance. We the people, educated in your underhanded, sneaky, manipulated ways... find your thought process, ridiculous. We don't agree with measure 114.
