

Submitter: Carla Harris
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076
Subject: Please Oppose HB 3075

I urge you to oppose House Bill 3075. This bill modifies the already restrictive firearm permit rules from Measure 114, threatening Oregonians' Second Amendment rights. It adds unnecessary hurdles for law-abiding citizens while doing little to stop criminals, who ignore these laws anyway. There's no solid evidence that more permitting reduces gun violence— it just burdens the innocent. Worse, HB 3075 seems to dodge judicial oversight by limiting court challenges, which smells like overreach. It'll also strain state agencies and hurt small businesses, especially in rural areas. This isn't about safety; it's about control, rushed through as an "emergency" to avoid real debate. Please vote no on HB 3075. Protect our rights and focus on real solutions, not symbolic restrictions.

Sincerely,
Carla Harris
