

Submitter: Andy Ridinger

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3655

My name is Andy Ridinger, I am the lead operator for the City of Halsey Public Works and i am in support of measure HB3655. Shortening the on-the-job training gives a level 1 operator a chance to be a state certified operator specifically testing for a lagoon wastewater treatment facility. Investing in an employer in rural areas become difficult with a possibility of staff turn-over rates. Thank you
