

Submitter: Christina Hammond
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076

I opposed HB 3076 as it further attempts to strip lawful firearm owners of their rights to purchase by essentially reducing the number of FFLs to our chase through. It increases the hardships they face and are already regulated by the Federal government. This will increase the costs of owning this type of business, therefore either putting them out of business or forcing them to pass on increased costs to purchasers. Federal programs already require stringent processes and oversight. Do not allow this to be heard.
