Measure, Appointment or Topic:

HB3075

HB 3075-1 will not solve gun violence. Criminals don't care about the existing measure in place to prevent them from stealing firearms, let alone being in possession of. The bill only punishes the lawful citizens who obtain firearms legally, so how does this logically stop gun violence? I politely ask, seriously that is a question. Search your soul and ask yourself. How many times have you seen photos on the news of a drug seizure with packages of illegal drugs on the table with firearms? Doesn't it make sense that the criminals don't care about the drug laws or the firearms systems already in place. Do you really believe additional layers of paper will stop those bad people from getting drugs or firearms?

In a classroom over forty years ago underaged people were given firearms instruction, took a written test, and then upon successfully completing the ODFW Hunter's Education course we were able to hunt wild game for substance. 178 years ago on The Great Migration (The Oregon Trail 1843) every person found firearms essential to fill the supper pot and protect themselves with a firearm, no permit necessary! Now society finds it essential to have a cell phone, try using that to feed or protect yourself and see how that goes. The bottom line is only a good person with a firearm can stop the threat of a person doing bad things with a firearm. Please stop HB 3075-1 from moving forward. Thank you for your public service and time to read this testimony.
