Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Born Oregonian lived here my 37 years. Never would I ever expected these total gun grab bills. In a state based and founded on guns. It's disgraceful and violates Oregon and United States Constitutions. Shall not be infringed is very simple and protection form a tyrannical Government is to. Oregon government needs to start listening to the people that pay your salaries. I say no to M114, Hb3075 or any legislation not passed by the will of the people.
