On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Dear Chair and committee members -

The whole ballot measure 114 and the amendments you are proposing goes against everything our founding fathers stood for and, fought for to protect we the citizens. To even think that this will in some way, shape or form keep guns out of criminals hands then you are very misguided in your thinking. The very fact that you are imposing such restrictions to the public goes against Oregonians civil rights. Actually it goes against our God given right to protect ourselves. You are not God. You can't impose these kinds of laws on the citizenry. Oregon has become a tyrannical state because of these types of infringements on our rights. People are leaving Oregon by the hundreds because of over regulation. Now you will have people leaving the State because of government overreach on our second amendment right. When will you wake up and see the destruction this House Bill is doing? Please just KILL the BILL!
