

Submitter: Ryan Guile

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose HB3075 in order to protect my constitutionally protected rights under the second amendment. This bill does nothing to curb crime and it only serves to oppress the law abiding citizens of Oregon and the people that use the second amendment to protect themselves, their family, their property, and others who cannot protect themselves.

Pushing bills like this through only panders to the people who are not educated on the matter and will not solve any problems in our state that should be solved through other means.

Consider the people that need their second amendment rights protected as the future of this state and the country depends on it.

Signed Ryan Guile
