Committee: Joint Committee On Ways and Means Subcommittee On
Transportation and Economic Development
Measure, Appointment or Topic: HB5024

The Oregon CHIPs program has been a vital part of our decision to invest in and grow our business in Oregon. In our re-activation of the old Eugene Hynix E4 fab, Oregon Chips funding has been essential to our investment in tools as part of our pilot line project to validate the technology and move forward with the project. We have had an excellent relationship with Business Oregon and the State is very well served by this program to further the growth of the Semiconductor industry in Oregon.
