Measure, Appointment or Topic: HB3075

Measure 114 and HB3075 are totally about "gun control" and has nothing to do with "gun violence".

It's the supporters of both M114 and HB3075 who are trying to dictate which groups of law abiding citizens can purchase and own a firearm. These two pieces of legislation are the exact same as the 1967 Mulford Act that President Ronald Reagan passed, in that it discriminates against certain classes of people and violates their 2nd Amendment rights afforded by the US and the Oregon Constitutions, to be able to protect themselves, their families, and loved ones from harm.
