Measure, Appointment or Topic: HB3075  
Oppose:

First generation Hmong american, my dad fought alongside the US in the Vietnam War and eventually was forced out of his homeland. Came to American to live in the free, but with how the USA is right now, our freedom and constitution is no longer being supported by our government.

I am a law biding gun owner, and this measure is a infringement of my constitutional rights. I am a first responder and work with high risk youth. Criminals will get guns illegally and that's a fact, I see it and know about it since I work with youth offenders. Protect the people who elected you, we pay for your salary so please work for us and not for yourselves and your own agenda.
