

Submitter: Jeff Kunze  
On Behalf Of: Free US Citizens  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

As American citizens, it is our duty to uphold the Constitution—an essential pillar of our freedom, which, unfortunately, many of us take for granted. I believe the left has largely abandoned this responsibility. I am speaking not only for myself and my family but also for my neighbors, our community, and our nation as a whole. No one has the right to dictate whether another individual can protect themselves in whatever way they deem necessary. This is not a matter for debate.

We are law-abiding citizens who have dedicated years to training, spent thousands of dollars, and obtained every state and federal license to build a business that serves our community. In your attempt to criminalize the actions of thousands of law-abiding residents, you will also drive countless small businesses to bankruptcy. You will directly contribute to taking food out of the mouths of the very people you're supposed to serve and protect.

By violating our constitutional rights, you have positioned yourselves as domestic enemies,. We expect you to take swift action and turn yourselves in, sparing taxpayers the expense of having to collect you. You have sold out your country, you shame and embarrass yourselves and the rest of us Americans. You know full well that there is no data supporting your claims that this will reduce crime. In fact, the evidence shows that it will cost the well-being and lives of over 1.5 million people in the U.S. each year—the very lives that could be saved by allowing individuals to protect themselves and their loved ones. The very lives you sworn oath protect. After all, one seconds count law-enforcement are always minutes away.
