

Submitter: johnny brown

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Good evening. My name is Johnny brown. I am a lifetime Oregonian. I am a Father, a son and grandson to many lifetime Oregonians. This bill should move no further without knowing where the funding is coming from. Plain and simple.

It is very disappointing as small business owner to pay taxes to a state. That actively uses my tax money to try to take my rights away. Knowing this will just end up being shot down if it ever gets to the Supreme Court. You're effectively helping to run the state dry of money by waisting it on lawyer fees and so called experts.

It's been so disappointing to watch live feeds and ready testimony's from these court battles. I'm an avid hunter and have a solid understanding of firearms. The so called experts that are brought in for testimony for the state are mind bogglingly incompetent about so many basic firearm things I don't understand how they could ever be considered an expert.

I hope we can all do better.

Sincerely Johnny Brown
