

Submitter:

Jaiden Murphy

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

As an American and lifelong resident of Oregon, as well as a very proud patriot of this beautiful country I find myself questioning the amount of rights and freedom I still have in the country that I love so much after learning of measure 114 being signed into law. As it is written under the second amendment, we as Americans have the right to bear arms, and trying to take that right from us or put very strong stipulations on that right is not what our country was founded upon or what our country stands for and the should never be what our country stands for. For the sake of myself, my family, my friends, and most of all my children I hope that you strongly reconsider this decision so that I can continue to raise my children in this great country and not be in fear of losing more of my god given rights as an American, because this truly will only be the beginning when it comes to taking the rights of the citizens of this country.
