On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Please, do whatever you can to help insure that guns only end up in the hands of competent, healthy adults. We all know that gun violence is proportional to the number of guns in circulation; I am hoping that this investigative period shows that licensing gun dealers will help minimize the number of newly sold firearms that end up in the hands of those who will do harm to innocent and unsuspecting civilians.
