

Submitter: Mark Wimmer

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I Strongly oppose this measure. This directly violates our constitutional rights. While this measure is under the guise of safety it will result in none and ultimately cause more harm than good. This measure will only hurt honest law abiding citizens. Look at the major cities across the United States. The ones that have the strictest gun control also have the highest levels of crime and violence. This measure is a slippery slope that erodes our constitutional rights. By making it more difficult for honest law abiding citizens to legally purchase firearms all you are doing is making it harder to defend ourselves and loved ones and it will embolden criminals. Please use logic and facts and avoid the mistake of supporting this measure because you may "feel" this will do good. History will say you are wrong. Do not support this measure.
