As an Oregon Citizen I strongly oppose this bill. Having no evidence that these changes will make a difference, filling out a blank check to be written from the taxpayers bank account, forcing undue administrative duty on to state police, and putting all the burden of its prospect on to law abiding Oregonians automatically making them criminals, oh sorry, I mean second class citizens. It is unjust and plain wrong This bill lacks transparency in all facets except the part where it pushes a false narrative of greater safety, does nothing to lower crime, and costs Oregonians their rights and more money regardless of outcome, as usual.
