

Submitter: Tonya Buzzard

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I strongly opposed this HB3076. As a lifelong resident of the State of Oregon, I don't understand how we need a bill to study the additional requirements of having a state level FFL license when these dealers already have to go through a Federal Licensing process. This is just one more way to spend taxpayer dollars for a redundant licensing program...in other words, a total waste of the taxpayer's money, as well as further restricting Law abiding gun owner rights and forcing people out of business.... anything to get rid of the big, bad, scary guns. Instead of wasting OUR money that WE have worked so hard for....I believe you need to be allowing Oregon State Police as well as our City and County police departments to do their jobs ....to hold criminals accountable for their actions instead of punishing the law abiding Citizens of the State of Oregon. Meanwhile, criminals get off Scott Free, while the law abiding Citizens are the ones who continue to be punished and our beautiful state continues to go downhill. Vote NO!
