

Submitter: Stanley Boucher

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

My name is Stan Boucher. I am writing this testimony in full opposition of measure 114 and any bill added to it. I have lived in this state my entire life. I have built a business here and have raised a family here. I'm extremely disturbed with the way this state has been run for many years now. The eagerness of the state government to infringe on my second amendment rights is ludicrous. I do not support this kind of thing. This type of legislation is only good for making it easier for the people that do not follow the law to continue to break the law. It does not help solve gun violence. It does not help solve any of those things all that does is persecute the law-abiding citizens of Oregon, and the ones who use firearms for sporting purposes. These types of legislation have made me consider closing my business and moving my entire family away from this state or used to be once a great thing now it's just been run into the ground with so many terrible bills and laws forced upon the citizens of this state.
