

Submitter: Shelby Staffenson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB634

I support SB634. Of course we need to include hydropower in the renewable energy portfolio. It is effective and efficient and a very reliable energy source. Hydropower does not rely on the wind to turn a turbine or the sun to shine on a solar panel. We should invest more in the turbine generators that produce power and the infrastructure around our dams. I urge you to vote Yes on SB634.
