On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

The 2nd Amendment was clear in its priorities with its first 3 words: "A well REGULATED"... Regulations of those and upon those who choose to keep or bear arms. Oregonians overwhelmingly support sane regulations of "arms", despite the lopsided testimony showing otherwise. Please support HB3075 and additional regulations that are sensible and keeps Oregonians safer from the scourge of gun violence.
