

Submitter: Sarah Koetz
On Behalf Of: Law abiding citizens
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I'm not sure why I have to do this, as elected officials you should know better than I. However here we sit AGAIN!!! A new bill to make law abiding citizens criminals, to curb the actual criminals behavior?? Really aligns with Oregons recent track record of supporting Criminals while stepping on actual citizens. How does that even make sense in reality? Criminals will get thier hands on weapons law or no law. Laws will only curb the citizens leaving us vulnerable and without a way to defend ourselves from said criminals and the predators that try n take our lively hoods.

Measure 114, regardless of your paid off judge is unconstitutional on all fronts, this is just another slap in the face of your oath, both our Constitutions, and the people who actually do the work that funds all your corrupt special interests. VOTE NO!!
